

IAEA INFORMATION CIRCULAR (INFCIRC) 908: Mitigating Insider Threats

What?

At the 2016 IAEA International Conference on Nuclear Security: Commitments and Actions, the United States issued IAEA Information Circular, INFCIRC/908, "Joint Statement on Mitigating Insider Threats," which is open for all Member States to subscribe to the goals and commitments as described.

INFCIRC/908 consists of two major focus areas:

- 1) Commitment to support the IAEA to develop and implement an advanced, practitioner-level training course on insider threat mitigation, and
- 2) Implementation of measures to mitigate insider risk by taking a risk informed graded approach.

More details about the latest information on INFCIRC/908 and its Revision 1 can be found at: www.insiderthreatmitigation.org

IAEA Information Circulars are published by the IAEA to bring matters of general interest to the attention of its Member States. Commitments and subscriptions to INFCIRC/908 are coordinated by the sponsoring Member State. INFCIRC/908 is not legally binding.

How?

To become a subscriber to INFCIRC/908:

Your country's Permanent Mission to the United Nations and other International Organizations in Vienna:

- 1) informs the Permanent Mission of the United States of your country's intent to subscribe, and
- 2) sends a note verbale to the Secretariat of the IAEA informing that your country would like to subscribe to INFCIRC/908 Revision 1 and request such official communication be circulated as an INFCIRC document to all IAEA Member States.
