### Regional Workshop on Risk Reduction of High-Risk Behaviors Workshop Dates

**Event Address/Location**  
**Host Name**  
**Host Contact Information Telephone/Email**

This three-day regional workshop aims to enhance awareness of the role human factors play in minimizing organizational risks related to insider threats. Through interactive presentations and real-world case studies, the workshop will address key topics such as identifying critical roles, recognizing concerning behaviors, preventing and countering extremism, and navigating national and regional regulatory challenges. Participants will acquire valuable insights and tools to proactively mitigate insider risks at facilities handling nuclear and other radioactive materials. Lessons learned and best practices identified during the workshop will be collected and shared with the international insider threat mitigation community of practice.
